**Southeastern Oakland County Water Authority
Request for Proposals
Coolidge Highway 16-inch Transmission Main Rehabilitation
Job #20150365**

Date: January 18, 2018

The Southeastern Oakland County Water Authority (SOCWA) is accepting proposals from experienced and qualified firms to rehabilitate approximately 5,385 lineal feet of 16-inch cast iron water main along Coolidge Highway from just south of 13 Mile Road to just south of 14 Mile Road. Alternate methods of rehabilitation/construction can be proposed, are encouraged, and may be considered and potentially accepted if in the best interest of SOCWA. Sealed proposals will be received by SOCWA at the Administration Office, 3910 W. Webster Road, Royal Oak, MI 48073 until EXACTLY 3:00:00 P.M. Local Time, FEBRUARY 8, 2018, at which time and place the names of submitting proposers will be publicly opened and read.

Proposers shall review and comply with the Instructions to Proposers, which are incorporated by reference and located in Attachment A – Project Manual, and carefully review all Contract Documents, as defined in the Instructions to Proposers. Proposals submitted after the exact time specified for receipt, will not be considered.

The Contract will consist of the following principal items of work and appurtenances as specified herein and shown on the Contract Drawings.

Description of Work:

Clean, televise, and rehabilitate 5,385 lineal feet of 16-inch cast iron transmission main, install four (4) new 16-inch diameter gate valve and wells, install two (2) new blow-off valve and wells, provide post-construction inspection and testing, and restore disturbed areas to contract requirements.

Copies of Project Manual, Contract Drawings, and Proposal Forms (Procurement Documents) shall be available on or after January 18, 2018 at the offices of Hubbell, Roth & Clark, Inc., Consulting Engineers, 555 Hulet Drive, Bloomfield Hills, Michigan 48302-0360.

A non-refundable payment of EIGHTY (\$80.00) Dollars, **CHECK ONLY**, payable to “Hubbell, Roth & Clark, Inc.” will be required for each set of Procurement Documents. Procurement Documents can be shipped by U.P.S. ground for a shipping and handling charge of TWENTY (\$20.00) Dollars, CHECK ONLY, non-refundable, to Hubbell, Roth & Clark, Inc. **The Proposer is advised that to submit a proposal on this project, the Proposer must have purchased a set of Procurement Documents from Hubbell, Roth & Clark, Inc.**

Proposals submitted by Proposers who have been debarred, suspended, or made ineligible by any Federal Agency will be rejected.

* Berkley * Beverly Hills * Bingham Farms * Birmingham
* Clawson * Huntington Woods * Lathrup Village * Pleasant Ridge
* Royal Oak * Southfield * Southfield Township

Each proposer agrees to waive any claim it has or may have against the Owner, the Architect/Engineer, and their respective employees, arising out of or in connection with the administration, evaluation, or recommendation of any proposal.

Each proposal shall be submitted on the proposal forms provided and shall be accompanied by a certified check, cashier's check or bid bond (proposal guarantee), executed by the proposer and Surety Company, payable to the Southeastern Oakland County Water Authority in the amount of not less than Five Percent (5%) of the accompanying proposal amount. Proposal Guarantee shall provide assurance that the proposer will, upon acceptance of the proposal, execute the necessary Contract with the Southeastern Oakland County Water Authority. No proposal may be withdrawn after scheduled closing time for receiving proposals for at least ninety (90) days.

The successful bidder will be required to furnish satisfactory Performance, Labor and Material, and Maintenance and Guarantee Bonds.

THE SOUTHEASTERN OAKLAND COUNTY WATER AUTHORITY RESERVES THE RIGHT TO REJECT ANY AND ALL PROPOSALS AND TO WAIVE ANY IRREGULARITIES IN THE PROPOSALS.

No Proposal will be received unless made on blanks furnished and delivered to the Southeastern Oakland County Water Authority on or before 3:00 p.m., Local time, February 8, 2018.

Please submit proposal on or before the date and time given above to:

Jeff McKeen, P.E.
General Manager
Southeastern Oakland County Water Authority
3910 W. Webster Road, Royal Oak, Michigan 48073

All proposals (one (1) original, three (3) copies, and one (1) electronic copy) must be submitted in a Sealed Envelope marked "COOLIDGE HIGHWAY 16-INCH TRANSMISSION MAIN REHABILITATION".

Definitions

1. Owner shall refer to the Southeastern Oakland County Water Authority, SOCWA or “Authority”.
2. Service Company, Vendor, Contractor, Firm or Proposer shall refer to the company providing a proposal for the work outlined in the specifications.

Securing Documents

Copies of the Request for Proposals Documents may be obtained from the offices of Hubbell, Roth & Clark, Inc., Consulting Engineers, 555 Hulet Drive, Bloomfield Hills, Michigan 48302-0360. The authorized version of the Request for Proposals document shall be that Request for Proposals document which was purchased from the offices of Hubbell, Roth & Clark, Inc. only.

Drawings and specifications remain the property of the Southeastern Oakland County Water Authority.

Examination of Documents and Site Work

Before submitting a proposal, each proposer shall examine the drawings carefully, and all other Request for Proposals documents, and shall visit the site of the work. Each proposer shall fully inform themselves prior to proposing as to existing conditions and limitations under which the work is to be performed, and shall include in their proposal sum the cost to cover the items necessary to perform the work as set forth in the Request for Proposal documents. No allowance will be made to a proposer because of lack of such examination or knowledge. The submission of a proposal will be considered as conclusive evidence that the proposer has made such examination.

Addenda to Request for Proposal Documents

No interpretation or clarification of the meaning of any part of this RFP will be made orally to any vendor. Vendors must request such interpretations or clarifications in writing from the Authority’s Engineering Consultant, Hubbell, Roth & Clark, Inc. Request for information or clarification of this RFP must be made in writing and addressed to Bradley Shepler, P.E. at the address or email address listed below, with email being the preferred method of communication. Questions should reference the RFP page and section number.

Bradley Shepler, P.E., CCCA, LEED AP
Associate
Hubbell, Roth & Clark, Inc.
555 Hulet Drive, Bloomfield Hills, MI 48302
Email: bshepler@hrcengr.com

Questions relative to this solicitation must be submitted to Bradley Shepler, P.E., in writing, prior to TUESDAY, JANUARY 30, 2018 at 12:00 p.m. (noon). No negotiations, decision or actions shall be initiated by any firm because of any verbal discussion with any individual Authority employee, or their Engineering Consultant prior to the due date or during the evaluation process. All communications shall be conducted through the Authority’s Engineering Consultant, unless specific written documentation is provided to the vendor.

The Authority reserves the right to change or amend the RFP documents, prior to the proposal due date by the issuance of Addendum. Addendum information will be provided to each vendor that has secured procurement documents in accordance with this Request for Proposals. All such changes or addenda shall become a part of the contract and all vendors shall be bound by such changes or addenda.

The Authority reserves the right to disqualify any proposer who contacts any Authority employee, representatives, or agent concerning this RFP other than in accordance with this section. Nothing in this section shall prohibit the Authority from conducting discussions with proposers after the proposal opening.

Submittal Guidelines

- a. Submit one (1) original, three (3) copies, and one (1) electronic copy;
- b. It is the proposer's responsibility to clearly identify and describe the products, equipment and services being offered in response to this solicitation;
- c. The solicitation forms must be completed legibly and in their entirety;
- d. All required information as requested must be furnished and presented in an organized, comprehensive and easy to follow manner;
- e. Faxed and/or emailed proposals WILL NOT be accepted.

Professional Approach

The firm will represent that all tasks will be performed in accordance with generally acceptable professional standards and further represent that the advice and consultation provided will be within its authority and capacity as a professional. The firm will comply with the regulations, laws, ordinances and requirements of all levels of government applicable to the project.

SECTION 2– PROJECT OVERVIEW

Project Overview

The Southeastern Oakland County Water Authority (SOCWA) is accepting proposals for professional construction services for a complete project that will rehabilitate approximately 5,385 lineal feet of 16-inch cast iron transmission main that is currently aligned in the median and southbound turn lanes of Coolidge Highway between just south of 13 Mile Road and 14 Mile Road in Royal Oak, Michigan. This corridor is an extremely congested travel route that carries upwards of 20,000 vehicles per day. The objective of this project is to complete the work while minimizing disruption to traffic.

The existing transmission main was installed in mid-1950's using cast iron pipe with mechanical-joints. Field observations indicate that the bolts in the mechanical joints have corroded and are causing the joints to leak. The remaining wall thickness and cleanliness of the pipe interior are unknown at this time. The Authority would like to eliminate the water loss created by these joint leaks and extend the useful life of the existing transmission main as part of this project.

Alternate proposal submissions in addition to what is identified above, with suggestions by the proposers for other ways to successfully complete this project are encouraged as well.

Please carefully review this document. This document is a Request for Proposal. It differs from a Request for Bid/Quotation in that the Authority is seeking a solution as described herein, not a bid/quotation meeting firm specifications for the lowest price. Proposers are to provide their proposed solution based on their professional knowledge and developed around the general requirements defined within this proposal. As such, the lowest price proposed will not guarantee an award. Competitive sealed proposals will be evaluated based upon criteria formulated around the most important features of the service, of which qualifications, experience, project schedule, and design submittal, may be overriding factors, and price may not be a determining issuance of a contract or award. The proposal evaluation criteria should be viewed as standards, which measure how well a contractor's approach meets the desired requirements and needs of the Authority.

Those criteria that will be used and considered in evaluation for award are set forth in this document. The Authority will thoroughly review all proposals received. The Authority will also utilize its best judgment when determining whether to schedule meetings with short-listed proposers, after receipt of all proposals. A contract will be awarded to a qualified contractor submitting the best value proposal.

The Southeastern Oakland County Water Authority reserves the right to select, and subsequently recommend for award, the proposed service which best meets its required needs, quality levels, and budget constraints.

Background

The Southeastern Oakland County Water Authority (SOCWA) is a regional water authority that purchases potable water from the Great Lakes Water Authority and stores, pumps, and redistributes potable water to thirteen customer municipalities through its network of 50.5 miles of 16-inch to 48-inch diameter transmissions mains. The SOCWA system supplies potable water to an area that covers over 56 square miles and a population of approximately 210,000. Customer communities include;

Berkley, Beverly Hills, Bingham Farms, Birmingham, Bloomfield Hills, Bloomfield Township, Clawson, Huntington Woods, Lathrup Village, Pleasant Ridge, Royal Oak, Southfield, and Southfield Township.

General information regarding SOCWA is available at www.socwa.org.

SECTION 3– SCOPE OF SERVICES

The Southeastern Oakland County Water Authority (Authority) is seeking vendors to rehabilitate approximately 5,385 lineal feet of 16-inch cast iron transmission main. The Authority would like to minimize disturbance to the project area and has proposed the use of trenchless technologies for this project. Pre-approved trenchless technologies include cured-in-place pipe (CIPP) and close-fit sliplining via a symmetrical reduction system.

The 16-inch transmission main within the project limits does not have any active service tees or connections and has the ability to be completely shut-down from September 1st through June 1st. The transmission main includes four (4) capped, factory service tees that were included during the installation of the pipe but were never used. These capped service tees do not need to be reinstated and are to be abandoned in place.

In addition, the project will include the installation of four (4) gate valve and wells and two (2) blow-off assemblies

The Authority would like to evaluate different categories of rehabilitation liners, thicknesses and strength capabilities to determine which rehabilitation liner, installation method and final product is best suited for this project and available budget. Design requirements for the rehabilitation liners for each of the following Proposal Options are located in Specification Section 1001 – Supplemental Project Requirements.

Proposal Option #1

The project includes but is not limited to the following: preparation, design, testing, restoration, and warranty services for the installation of a structurally independent (as defined as a Class IV lining in the AWWA M28 Manual of Practice), NSF-61 certified, rehabilitation liner within an existing 16-inch cast iron transmission water main and additional appurtenances as detailed within the limits as shown in the construction drawings. The liner shall be designed to withstand all external loads and an internal working pressure of 80 psi.

Proposal Option #2

The Authority is accepting a Proposal Option #2 for professional construction services to perform the work items as detailed in Proposal Option #1, except the liner to be installed shall be fully structural, exceeding the strength requirements of a Class IV liner in the AWWA M28 Manual of Practice, equivalent to that of a replacement pipe. The liner shall be designed to withstand all external loads and an internal working pressure of 150 psi.

Proposal Option #3

The Authority is accepting a Proposal Option #3 for professional construction services to perform the work items as detailed in Proposal Option #1, except the liner to be installed shall be a semi-structural liner (meeting the minimum requirements of a Class III lining in the AWWA M28 Manual of Practice). The liner shall be designed to bridge gaps in the host pipe of up to 4-inches in diameter at an internal working pressure of 80 psi.

Work shall be accomplished in accordance with the City of Royal Oak local ordinances and right-of-way permitting, Consumers Energy requirements for Protecting Gas Facilities, and the contract specifications and construction drawings for the project as prepared by the Authority's Engineering Consultant, Hubbell, Roth & Clark (HRC).

Alternate Proposal(s)

In an effort to complete this project in the most cost-effective, time efficient manner the Authority felt that evaluating alternative pipeline rehabilitation methods was in their best interest. The Authority is encouraging vendors to submit alternate proposals for the Authority's consideration. Alternate proposals are still required to submit a proposal covering all aspects of the RFP.

Proposers are not required to propose on each proposal option to be considered for award. The Authority will evaluate all proposal responses received and make a recommendation for award that is in the best interest of the Authority and allows for successful completion of the project on time and within budget.

SECTION 4– GENERAL PROVISIONS

In order to receive consideration, make proposals in strict accordance with the following:

- No proposal will be considered unless it is made in accordance with the specifications and drawings, addenda, instructions to proposers, general conditions and other documents as provided.
- Proposal must be submitted on the forms provided, properly signed and with all items filled out. Do not change the wording of the proposal form, and do not add words to the proposal form. Unauthorized conditions, limitations, or provisions attached to the proposal will be cause for rejection of the proposal. If alterations by erasure or interlineation are made for any reason, explain over such erasure or interlineation with a signed statement from the proposer.
- No late proposals will be accepted. Late proposals will be returned to submitter unopened. The Southeastern Oakland County Water Authority assumes no responsibility for errant delivery of proposals including those relegated to a courier agent who fails to deliver in accordance with the time and receiving point as specified.
- The Southeastern Oakland County Water Authority reserves the right to postpone a due date for its own convenience. Proposals are considered received when date stamped and in the possession of the General Manager.
- Only properly identified proposals received on time will be evaluated.
- Proposals that are not in total compliance with the specifications and drawings and other documents included in the Request for Proposals shall be marked “alternate” or the Authority will presume the proposal meets the specifications herein.
- No proposal will be accepted from, or contract awarded to any person, firm, or corporation that is in arrears or is in default to the Southeastern Oakland County Water Authority upon any debt or contract, or that is in default as surety or otherwise, or failed to perform faithfully any previous contract with the Authority.
- No proposal may be withdrawn after it has been deposited with the Southeastern Oakland County Water Authority, except as provided by law.
- All costs incurred in the preparation, submission, and presentation of this proposal, in any way whatsoever, will be wholly absorbed by the prospective firm. All supporting documentation will become the property of the Southeastern Oakland County Water Authority unless requested otherwise at the time of submission. Michigan FOIA requires the disclosure, upon request, of all public records that are not exempt from disclosure under section 13 of the Act, which are subject to disclosure under the Act. Therefore, confidentiality of information submitted in response to this Request for Proposals is not assured.
- The Authority reserves the right to reject any and all proposals, to waive any informality in the proposal received, and to accept any proposal (or part thereof) which it will deem to be most favorable to the interests of the Authority or to award to multiple proposers.
- The Authority reserves the right to modify the scope of services during the course of the contract. Such modification may include adding or deleting any tasks this project will encompass and/or any other modifications deemed necessary. Any changes in pricing or payment terms proposed by the contractor resulting from the requested changes are subject to acceptance by the Authority. Changes may be increases or decreases.

- The Authority reserves the right to terminate the contract without penalty upon 30 days' written notice due to poor performance or for reasons deemed to be in its best interest. A designated representative of the Authority will be solely responsible for determining acceptable performance levels. His/her decision will be deemed in the Authority's best interest and will be final. The Authority reserves the right to re-award the contract to the second most qualified proposal, re-bid the contract or do whatever is deemed to be in its best interest.
- The successful proposer must furnish documentation complying with State of Michigan and Federal laws relating to discrimination under Equal Employment Opportunity (EEO).
- The Southeastern Oakland County Water Authority is exempt from all sales, excise, and transportation taxes.
- The selected firm must maintain for the life of the agreement insurance coverage meeting the minimum limits of liabilities as outlined in the Request for Proposals document.
- Ownership of all data, materials and documentation originated and prepared for the Southeastern Oakland County Water Authority pursuant to the Request for Proposals and the subsequent contract shall belong exclusively to the Southeastern Oakland County Water Authority
- The contractor will provide competent, suitable and qualified personnel to perform the work as required by the specifications. The contractor will designate a representative who will be present at site and will have the authority to act on behalf of the contractor. The contractor's representative will not be replaced without prior written notice to the Authority. All communications given the contractor's representative will be as binding as if given to the contractor.
- The contractor shall not subcontract any or all portions of the work unless the Authority grants prior written approval. Any subcontractor, so approved, shall be bound by the terms and conditions of this contract. The contractor shall be fully liable for all acts and omissions of its subcontractor(s) and shall indemnify the Southeastern Oakland County Water Authority for such acts or omissions. All work shall meet with the approval of the Authority's representative for the project(s), as conforming to the provisions and requirements of this contract.
- All work shall meet with the approval of the Southeastern Oakland County Water Authority General Manager, or his authorized representative, as conforming to the provisions and requirements of this contract.
- Advanced payments will not be authorized. Payments will be made as identified within the Request for Proposal.
- In the event sufficient budgeted funds are not available for a new fiscal period, the Authority shall notify the awarded company of such occurrence and the contract shall terminate on the last day of the current fiscal period without penalty or expense to the Authority.
- The Southeastern Oakland County Water Authority reserves the rights to waive any informalities, or immaterial omissions or defects not involving price, time or changes in the work and to reject any or all proposals, if to do so is deemed in the best interest of the Authority. In no event will an award be made until all necessary investigations are made as to the responsibility and qualifications of the contractor to whom it is proposed to make such award. Any contract awarded to a person or company who is discovered to have been in default or disqualified at the time of the awarding of the contract shall be voidable at the discretion of the Southeastern Oakland County Water Authority General Manager.
- Proposers are advised that the RFP is considered to be under evaluation until contract award. Authority staff or its representatives are restricted from giving any information relative to the

proposals and the “progress” of the evaluation during this time, except as described in this RFP and as required to administer the evaluation process. Proposal information will be available upon award of the contract.

- In the event bankruptcy proceedings are commenced by or against contractor or under any provisions of the United States Bankruptcy Act or for the appointment of a receiver or trustee or a general assignment for the benefit creditors of either party. The Authority shall be entitled to terminate without further cost or liability. The Authority may cancel the Agreement/Contract or affirm the Contract and hold the contractor responsible for damages.
- The proposer accepts full responsibility to ensure that no changes are made to the Request for Proposals documents. In the event of conflict between a version of the Request for Proposals submitted by proposer and the version maintained by the Southeastern Oakland County Water Authority, the version maintained by the Southeastern Oakland County Water Authority shall govern.
- Under 2012, PA517, an Iran linked business, as defined therein, is not eligible to contract with the City and shall not submit a proposal.

SECTION 5– SELECTION CRITERIA

Proposals will be evaluated and ranked. The Southeastern Oakland County Water Authority reserves the right to reject any and all proposals, to make an award based directly on the proposals or to negotiate further with one or more firms. The firm selected will be chosen based on the apparent greatest benefit to the Authority, including but not limited to:

1. Project Work Plan & Design Submittal (40%) – Provide working drawings and written procedure of the proposed method of approach or work plan to meet the Authority’s needs for the scope of work specified. Proposers should clearly identify all available resources within the company and those that will be subcontracted to others. Proposers to provide design calculations for the liner thickness and a plan for the location of the proposed access pits to insert and retrieve the liner. Design calculations shall include equations and assumptions used to develop the minimum required thickness to maximize the post-rehabilitation hydraulic capacity and meet Authority specifications. Location plan for proposed access pits shall include anticipated location and dimension of access pits, proposed access pit earth retention system details, and planned storage and staging areas.
2. Experience and Qualifications (20%) - The proposing firm must have personnel who have experience with the design, preparation, and installation of the requested work. Provide information on technical training, specific work experience, and education of ONLY the team personnel who will be assigned to this project. Include information regarding who the Authority will utilize on a local basis to support the Authority after installation. Provide a list of comparable projects (minimum of 5) that have been successfully completed by your firm within the past 5 years and a contact person (name, address, title, responsibility, and phone number) for each project. Please include municipal/government contracts. Please provide a list of client references (minimum 5). Include name, address, phone number, contact person and briefly describe scope of services performed. Include public sector clients.
3. Cost Proposal (30%) - Cost proposal per proposal form.
4. Project Schedule (10%) – Submit a detailed project schedule with proposal.

The Southeastern Oakland County Water Authority has provided specifications and requirements, which will assist in the procurement of the highest quality services possible to meet the requirements and needs of the Authority. Rehabilitation alternates provided by proposers are encouraged and will be reviewed and evaluated based on the best interests of the Authority. The proposal evaluation criteria should be viewed as standards, which measure how well a vendor’s approach meets the desired requirements and needs of the Authority.

All proposals will be evaluated and ranked. The Southeastern Oakland County Water Authority reserves the right to reject any and all proposals or to make an award based directly on the proposals. The Southeastern Oakland County Water Authority reserves the right to negotiate separately with any proposer, when such action is considered in its best interest.

Subsequent negotiations may be conducted, but such negotiations will not constitute acceptance, rejection or a counter-offer on the part of the Authority. The firm selected for the award will be chosen based on the apparent greatest benefit to the Southeastern Oakland County Water Authority.

The Southeastern Oakland County Water Authority reserves the right to interview any number of qualifying proposers as part of the evaluation process. The decision of which proposer to contact (if any) will be based on the selection criteria outlined in this document and as determined in the evaluation process. Meetings with shortlisted proposers will provide additional information and criteria upon which the Authority will base its selection decision. The Southeastern Oakland County Water Authority reserves the right to select, and subsequently recommend for award, the proposed services which best meets its required needs, quality levels and budget constraints. The lowest price proposed may not have a direct bearing on the final selection.

The Authority is not required to accept the lowest cost proposal in all or in part. The proposal award will not be based solely upon cost, but will be evaluated based upon criteria formulated around the most important features of the services, of which qualifications, experience, references, schedule or work plan, may be overriding factors. The proposal evaluation criteria should be viewed as standards, which measure how well a vendor's approach meets the desired requirements and needs of the Authority.

SECTION 6– VENDOR QUESTIONNAIRE

Date:	
Firm Name:	
Address:	
City/State/Zip Code:	
Telephone Number:	
Fax Number:	
Contact Person:	
Contact Person Email:	

Firm Established:	
Years in Business:	

Type of Organization: (Circle One)	
a. Individual	
b. Partnership	
c. Corporation	
d. Joint Venture	
e. Other	

How many years has your company been utilizing the product and installation method proposed for rehabilitating water main? Please explain.	
--	--

How many projects similar to this water main rehabilitation project does your company complete in a year?

How many clients does your company currently serve with the type of services described?
Explain the capacity of the services provided.

State what assistance is expected from the SOCWA staff (or its Engineering Consultant) for the project.

Describe the number of sub-contractors that will be needed to assist in the completion of this project and their respective roles.

Describe the targeted milestone dates for completing the project.

Provide a summary of how communication will occur to keep key representatives updated on the progress and budget for the project.

Provide comment on the feasibility of completing the required work within the proposed maintaining traffic plans and details and the City of Royal Oak right-of-way permit requirements.

Summarize what activities will be performed prior to the installation of the liner system to prepare for the liner insertion and assure proposed thickness and proper fit are provided.

Summarize what activities will be performed on the liner installation day.

Explain any follow-up services or warranties included with the rehabilitation liner.

Describe your company's policy regarding errors or omissions in plans and specifications.

What are your billing procedures?

Have you been involved in any litigation during the past five years? If so, provide an explanation.

How many employees does your company employ?

Full-time employees: _____ Part-time employees: _____

SECTION 7 – REQUIRED FORMS

- 1) Proposal Form (Section 00300 of Project Manual)
 - a. Must be filled out on forms provided
 - b. Vendor is not required to submit on every Proposal Option
- 2) Iran-Linked Business Vendor Certification (Section 00704 of Project Manual)
- 3) Signed acknowledgement of any Addendum Forms provided

In addition to the Required Forms listed above, the following is required to be submitted with the Proposal:

- Bid Bond
- Design Submittal as referenced in Section 5
- List of Comparable Projects, References, and Personnel Training/Experience as referenced in Section 5
- Proposed Project Schedule as referenced in Section 5
- Vendor Questionnaire as referenced in Section 6
